Did July fly?

Who's Mexico's president now?

Is running for office a disease or a habit?

What this country needs is a sunshine factory.

Candidates for congress come to Pickens August 1.

Will you be there when the enrolled are voting August 25?

"Nest-ce Pas?" asks the Columbia State. No, sir, we have not got a drop left.

A man named Bird refuses to run for governor of Massachusetts. Maybe he'd rather fly.

The left unwept, unhonored and unburying.—Anderson

Those newspaper men who are tramping around the state with the candidates are surely entitled to a hero prize.

There is no such thing as "idle rumor." Rumor, hitched up to a lie, is one of the busiest idle things ever turned loose.

W. P. Pollock said that Senator Smith had gained 50 pounds of flesh since he had been in the senate. Pollock should go.

Now that Atlanta has got that Methodist university, we'll bet a bottle of coca-cola she doesn't know what she's gonna do with it.

Mrs. Emmeline Pankhurst has been released from jail again. Aunt Emmie seems to be getting in and out of prison about all the time.

According to geologists, South Carolina was once a tropical section of the universe. But that was several millions of years ago, they say.

The suffragettes are jubilant. Captured both Secretary of State Bryan and Speaker Clark, and their cry now is: "President Wilson next!"

Somehow we never had much faith in hand primaries.—Tugalo Tribune. We certainly have had plenty of the machine variety, and to spare.

"It is unhealthy to eat too much in hot weather," says Dr. Gossett in the Tugalo Tribune, and adds, ironically, "especially if it is hard to get."

What has become of the old-fashioned girl who used to begin to take her music practice just about day-break, when the rest of us wanted to snooze?

When the Colonel comes down in Dixie to break up the "Solid South" he will do well to pass South Carolina by. It would be time and wind gone to waste.

"Don't tickle the heels of a mule in hot weather," admonishes an exchange. Nor in any kind of weather, for that matter, if you would be happy ever after.

It is a noticeable fact that the men in any community who oppose an election to tax themselves for school purposes are the same ones who vote "no" on good roads bonds.

Anyway, a congressman don't have to work any harder than the rest of us. Keep 'em at it, Mr. President; you are the foreman, and your boss, the people, expect results.

Scotland's secretary of state was horsewhipped by the suffragettes last week. Did Secretary Bryan have that incident in mind when he capitulated to the American suffrage?

The religion of Jesus Christ is the greatest thing that God ever gave to this world. It cost the greatest price, the death of His son, and yet some men—candidates for high offices—go around and belittle the ministers of this religion, and throw off on Christianity itself. Men of that stripe ought to be repudiated at the ballot box, especially by men who claim to be Christians.

The chief drawback of the trans-Atlantic liner, America, is said to be "inability to carry the desired load."—Columbia State. We know some liners that are not trans-Atlantic that carry an awful big load.

Two women in Stuttgart, Germany, invaded the office of a newspaper named Schwabische Zeitung and whipped the editor. A man guilty of being editor of a paper with such a name should be licked, anyway.

The statement that the "biggest gun in the world will guard the Panama canal" was not intended as a fling at Col. Roosevelt, of course.—Anderson Mail. Is it possible reference was made to Uncle Joe Cannon?

In New York state some of the politicians want Roosevelt to run for governor and some want him for police commissioner. Why not compromise and make him chief of police of the Metropolis? He'd make a "bully" cop.

If you see a small boy sitting on the curbstone with his arms across his stomach, it's green apples.—Baltimore Sun. When we were his age it was pickles and ice cream.—Columbia State. At the present age it's watermelon.

The price of flour is coming down on account of the big western yield of wheat. Now if the farmers all over the country will raise a bumper crop of hogs, cattle and sheep, the high cost of living will soon be a thing of the past.

Doctor Cook, of North Pole fame, is coming into print some more. Congress wants to know of Secretary of the Navy Daniels who got there first, Cook or Peary. "Seppus will have to get some one to search him, it is thought."

The most absurd suggestion for a successor to the late Judge Lorton, though advocated by some alleged Democratic newspapers, is the Hon. W. H. Taft, president and ex-president by the grace of one T. Roosevelt. He is impossible.

While Mexico is now on the threshold of peace, rumor comes that General Orozco and others are preparing to organize a revolution against the new government now being formed to bring peace to that war-torn republic. What was it Sherman said about war?

Poor old John D. is losing his mind, it is feared. He was 76 years of age one day recently, and he celebrated the event by giving every child on his estate six cents. He told them they must save five of the pennies, but could blow the other one in for anything they wanted. A guardian should be appointed.

There has been miles of rot written about swatting the fly, thousands of dollars spent to eradicate the cattle tick, the mosquito and other pests, but never a line has been written nor a dollar appropriated, so far as we know, to eradicate the bed-bug—the chinch! How come?

It does not argue well for the civilization of a people when some foul-mouthed politician sneers at Christianity, to hear the howling mass cheer him. We are hardly civilized yet, much less Christianized. Let us hope and pray and labor for better conditions after the next election. "So mote it be. Amen."

The old-line Republicans in congress have had their own way so long about zetting all of the good things in the way of appropriations for the Republican states that it breaks their hearts whenever a state in the "solid south" gets a small slice of Uncle Sam's pie. Turn about is fair play. The pie is being passed south just now.

When a revolution fails the revolutionaries are called rebels and renegades, but if the uprising succeeds they are acclaimed patriots. A year ago Villa was described as a bloodthirsty rebel and bandit, while today he is proclaimed by some as the "George Washington of Mexico." Huerta, of course, having lost out, still retains the title of murderer and assassin. Therefore, it is plain that "nothing succeeds like success."

A traveling man, who was in Pickens at the senatorial speaking, remarked that he had attended many similar meetings in many states, but this was the first one where the candidates for United States senator spoke on every subject save that of national politics. Senators, he said, are supposed to have the interest of the whole country at heart—not any one state. He said he heard not a word about the things that are of interest to the whole people; that none of the candidates spoke of whether or not they would support the President in his endeavors to give the people justice or were opposed to the national administration; that the voters do not know where the candidates for one of the greatest offices in the gift of the people stand on these important questions. He thinks they should be enlightened.

Tugalo Tribune was five years old on the 20th. The Tribune is one of our best weeklies, and Westminster should be proud of it. It deserves to be well supported. May the Tribune see many more anniversaries.

Study of almost any club roll would reveal that we have an astonishing number of men of mark in this state.—The State. And yet there are some candidates for office who are opposed to compulsory education.

The "Aftermath" man in the Columbia State has a silhouette study, drawn especially for that colyum, and wants to know what South Carolina editor it is. Since looking over a picture of the Chick Springs aggregation we have come to the conclusion that it is old Aftermath himself.

At the Laurens meeting Senator Ed. Smith will have the pleasure of riding in a parade on a bale of cotton ginned 52 years ago. This will be better than wearing the simple white cotton blossom. To keep up the record of red and white emblems Gov. Blease will have to be provided with a red animal or article of some kind.—Tugalo Tribune. How would a red nose do for an emblem?

There is a bill now in congress which if passed will affect all of the rural mail carries in the country, requiring them to have automobiles. At present the standard rural route is 24 miles in length, most of them traversed by horse and buggy, and the maximum compensation is \$1,200 a year. On recommendation of the postmaster-general the length of the routes will be increased to 50 miles and the yearly allowance raised to \$1,800, and the carriers are expected to furnish their own autos on the increased salary.

## Surprising Cure of Stomach Trouble

When you have trouble with your stomach or chronic constipation, don't imagine that your case is beyond help just because your doctor fails to give you relief. Mrs. G. Stengle, Plainfield, N. J., writes: "For over a month past I have been troubled with my stomach. Everything I ate upset it terribly. One of Chamberlain's advertising booklets came to me. After reading a few of the letters from people who had been cured by Chamberlain's Tablets, I decided to try them. I have taken nearly three-fourths of a package of them and can now eat almost everything I want." For sale by all dealers.—Adv.

## Oolenoy School Opened

The Oolenoy graded school opened Monday, July 20, with Misses Elizabeth, Grace and Francis Mauldin as teachers. There is a large attendance and the school promises to be very successful.

## Politics

The State, complying with requests of various correspondents, yesterday printed the following figures relating to the primary election of 1912:

Total vote cast, 140,435.

Coleman L. Blease received 71,562.

Ira B. Jones received 66,478.

John T. Duncan received 2,385.

Blease's majority over Jones, 5,084.

Blease's majority over votes cast, 2,699.

In the second primary of 1910 the total vote cast was 108,855, or 33,580 less than the vote of 1912.

Of these Coleman L. Blease received 56,250.

C. C. Featherston received 50,605.

Blease's majority over Featherston was, therefore, 5,645.

Although the vote in 1912 was nearly a third larger than in 1910, Governor Blease's plurality over Jones was slightly smaller than over Featherston, and his majority was reduced to 2,699.

A site has been selected for the new postoffice building which will be erected at Lancaster at a cost of \$50,000.

## "FAGGED-OUT" WOMEN

## Will Find Help in This Letter.

Overworked, run down, "fagged out" women who feel as though they could hardly drag about, should profit by Mrs. Brill's experience.

She says: "I was in a very weak, run-down condition. Life was not worth living. I could not sleep, was very nervous, stomach bad, and was not able to work."

"I consulted with one or two physicians, without benefit. I read of Vinol helping some one in a similar condition so I began to take it, and it simply did wonders for me. I gained in weight and I am now in better health and stronger than ever. I can not find words enough to praise Vinol."

"Mrs. W. H. Brill, Racine, Wis. Thousands of women and men who were formerly weak and sickly owe their present rugged health to the wonderful strength-creating effects of Vinol. We guarantee Vinol to build you up and make you strong. If it does not we give back your money."

## Abstract of New Requirements For Voting in the Primaries

The State Democratic convention has declared existing rolls of Democratic clubs null and void.

Democrats must enroll themselves on the book of the club district in which they reside in order to vote in primary next August.

White Democrats, 21 years of age (or those who will reach that age before the succeeding general election), who have been residents of the state for two years and of the county for six months prior to the succeeding general election and of the club district 60 days prior to the first primary following their offer to enroll, are entitled to enroll in the book of their club district to vote in the primary election, provided they are citizens of the United States and of South Carolina.

The book of enrollment for each Democratic club in the state will be opened by the secretary of the club on or before the second Tuesday in June, 1914.

Democrats who wish to enroll in order to vote in the primary elections must present themselves in person to the secretary and sign the roll, giving their age, occupation and postoffice address (and street and number of their house where these designations exist.)

In case he is unable to write, the applicant for enrollment must make his mark on the book of the club district in which he resides, and the secretary will put his name on the book.

Notice will be given by county chairmen of the names of the secretaries of clubs and where books of enrollment are to be opened.

The books of enrollment will be closed and filed with the county chairmen on the last Tuesday in July.

## Taking Calomel Is Dangerous

Calomel is a powerful chemical made from mercury—people should be careful about its use. The only sure way to avoid the danger of calomel is to take no calomel.

Dodson's Liver Tonic, a vegetable liquid of pleasant taste, more than makes up and shocks your liver and often makes you really sick. Dodson's Liver Tonic, mild but effective, builds up and strengthens it. "It lives up the liver." You feel fine after taking it.

Dodson's may be taken without any restriction of diet or habits. You can give it to your children with fine results.

Get a large bottle for 50 cents at The Pickens Drug Company, and if it doesn't do all you think it ought to—if it doesn't make bilious spells mere trifles—if it doesn't "live up your liver," your money will be waiting for you and be returned with a smile.—Adv.
